

AMENDMENTS TO THE SPECIFICATION

[128] A software implementation of the above-described embodiment may comprise a series of computer instructions, ~~either~~ which may be fixed on a tangible medium, such as a computer readable storage media, for example, a diskette, a CD-ROM, a ROM memory, or a fixed disk[[,]] ~~It may also be the Internet.~~ The series of computer instructions embodies all or part of the functionality previously described herein with respect to the invention. Those skilled in the art will appreciate that such computer instructions can be written in a number of programming languages for use with many computer architectures or operating systems. Further, such instructions may be stored using any memory technology, present or future, including, but not limited to, semiconductor, magnetic, optical or other memory devices, or transmitted using any communications technology, present or future, including but not limited to optical, infrared, microwave, or other transmission technologies. It is contemplated that such a computer program product may be distributed as a removable media with accompanying printed or electronic documentation, e.g., shrink wrapped software, pre-loaded with a computer system, e.g., on system ROM or fixed disk, or distributed from a server or electronic bulletin board over a network, e.g., the Internet or World Wide Web.
